What Do You Get With Freemote?

- ONBOARDING CALL**

You're not in this alone. Meet your starting class, set goals and create a specific action plan to learn at the right pace for you.
- WEEKLY LIVE CALLS**

Stay in sync with the Freemote family on a weekly basis. Ask your instructors anything, we will review your portfolio or freelancing projects live, or just join as a spectator.
- FREEMOTE DEVELOPERS COMMUNITY**

A private Facebook group of developers around the world. See the success stories people are posting on a daily basis first hand, get encouragement to keep going, and get unstuck.
- UNLIMITED CODE REVIEWS**

You could easily have something on your freelance portfolio, or UpWork profile that's losing you dozens of deals. Make sure that doesn't happen.
- LIVE CHAT SUPPORT**

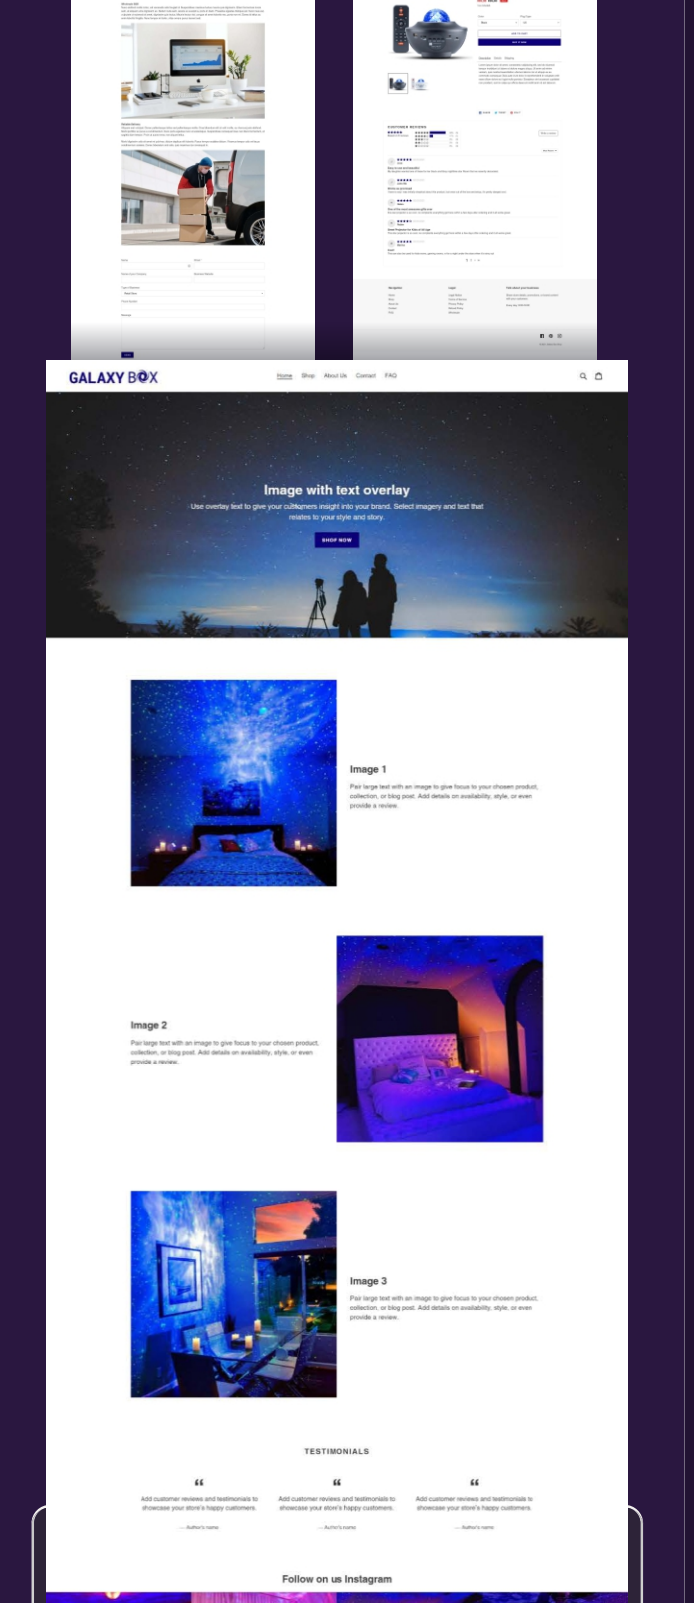

Chat live with our mentors who are REAL software developers (they have all worked in the industry). Coding bootcamps 10 times more expensive don't give you real developer mentors. We do.

WEEK 1 HTML & CSS Crash Course

13:00 HOURS OF VIDEO 36 PRACTICE PROBLEMS 56 QUIZ QUESTIONS 6 HUGE PROJECTS

HTML

CSS

PROJECTS

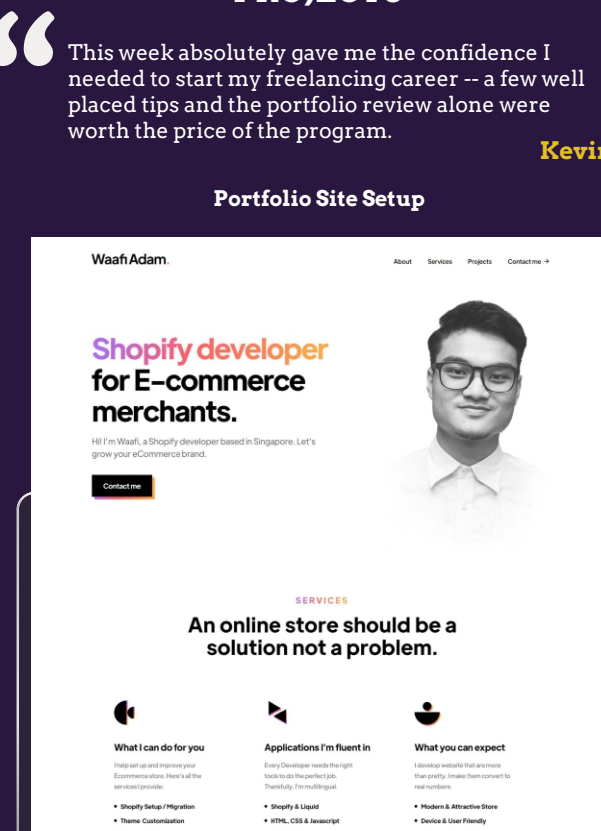

"All I can say is 'Wow'. I didn't think that something so small would present so many opportunities for learning. This has been a very well-crafted experience thus far. I look forward to the next parts."

David H

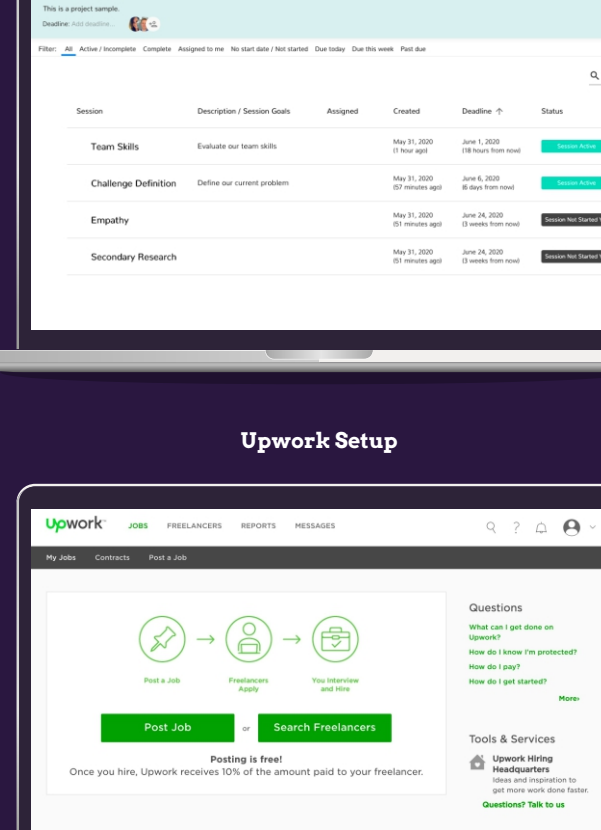

'COMING SOON' PROJECT

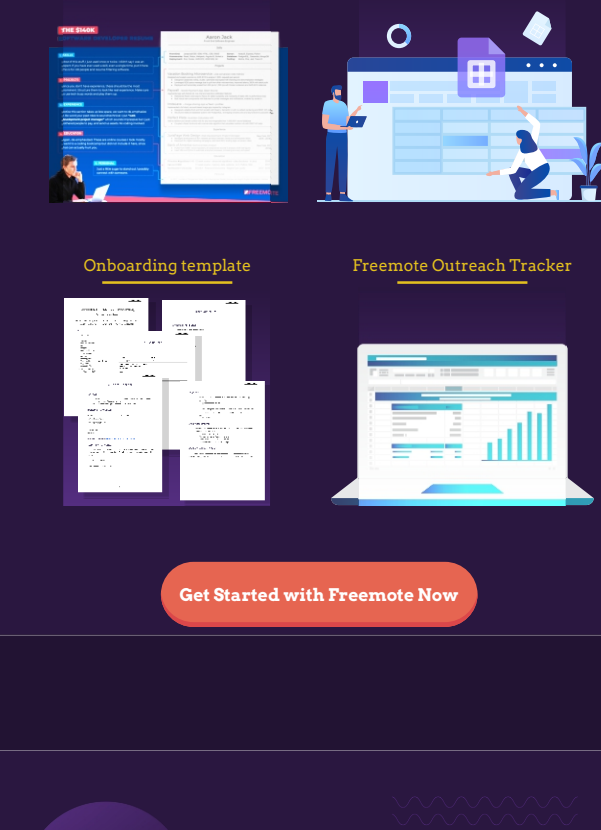

'DELIVERY STATUS' PROJECT

'FITNESS PAGE' PROJECT
